

Centre Point

HYDRAULIC • PNEUMATIC

Founded in 2004 Centre Point Hydraulic has since established a reputation for being one of the leading suppliers of hydraulic, pneumatic, and industrial equipment products in the GCC Region. Centre Point's range of fluid power products is developed from a hydraulic – based spectrum. The additional demand for other hoses and accessories has led to a wide ranging mix today, which also caters to the industrial, hydraulic, thermoplastic rubber and pneumatic hoses, fittings & accessories. We maintain a complete inventory of hydraulic hose fittings and adapters ready to ship to meet your needs. Our extensive range of fittings includes stock in excess of 3000 different variations of **JIC**, **SAE**, **DIN**, **BSP**, **BSPT**, **NPTF** and **NPSM** made from carbon steel. Brass, stainless steel are also available.

Centre Point's priority is building long – term, service-oriented partnerships that bring our customers greater lifetime value for equipment. Our team is also equipped to handle training, repair and technical support.

Centre Point Hydraulic proudly stocks and supplies the best brand names in the industry. With support from top quality partner brands such as Eaton, Norma Group and Uniflex, our product specialists are fully equipped to identify, and deliver the highest quality product the industry has to offer. In addition, our specialists provide on-going support and service that you can depend on.

Our brands – **RN**, **Hydroflex**, and **Itaflex** are known for outstanding performance and high quality.

Part No.: PTA95HP
HIGH PRESSURE
3/8 inch MISTING TUBE

900R3		Low pressure and low impulse hydraulic lines 30 to 110 bar . Exceeds SAE 100 R3 - EN854R3
R6		Very low pressure and low impulse hydraulic lines 20 to 35 bar . Exceeds SAE 100 R6 - EN854 R6
1SN		Medium Pressure Hydraulic Lines 40 to 250 bar and requires compact outer diameter. Exceeds SAE 100 R1AT - EN853 1SN
2SN		High Pressure Hydraulic Lines 80 to 415 bar and requires compact outer diameter. Exceeds SAE 100 R2AT - EN853 2SN
2SC		Constant Pressure Hydraulic Lines 210 bar and requires compact outer diameter. Exceeds SAE 100 R16 - EN857 2SC
R5		Medium Pressure Hydraulic Lines 25 to 210 bar . For use with fluids in Hydraulic systems Can also be used in air & water. Exceeds SAE 100 R5
4SP		Very high pressure Hydraulic Lines 165 to 450 bar and hydrostatic transmission lines. Exceeds SAE 100 R9R - EN856 4SP
4SH		Very high pressure Hydraulic Lines 250 to 420 bar and hydrostatic transmission lines. Exceeds SAE 100 4SH - EN856 4SH
R13		350 Bar super high pressure Hydraulic Lines and hydrostatic transmission lines. Exceeds SAE 100 R13 - EN856 R13
R15		420 bar super high pressure Hydraulic Lines and hydrostatic transmission lines. Exceeds SAE 100 R15 - EN856 R15
WATERBLAST 30K		Very high pressure hose for water descaling system.
WATERBLAST 50K		Water blasting, Water jetting, cleaning, cleaning equipment. Delivery of water and water emulsions.
HYDROWASH 1SN - 1SC		For cleaners, suitable for passage of water and detergents in aqueous solutions

HYDROWASH 2SN - 2SC

For cleaners, suitable for passage of water and detergents in aqueous solutions.

AC R134

For liquids or gas of R134A in automotive and bus air conditioning systems.

R14

P.T.F.E hose has an excellent temperature characteristics both in high and low temperature, Excellent chemical resistance, non contamination properties, low coefficient of friction and resists deterioration.

Thermoplastic Hose

R7

Medium Pressure Hydraulic Lines 80 to 230 bar.

R8

High pressure Hydraulic Lines 140 to 420 bar.

R8 TWIN

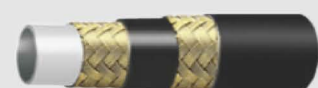

High pressure Hydraulic Lines 140 to 350 bar.

TP1

Medium pressure Hydraulic Lines 100 to 350 bar.

TP2

High pressure Hydraulic Lines 150 to 450 bar.

SEWER JETTING

Compact Sewer cleaning vehicles and lateral Sewer line cleaning equipments. 250 bar.

CNG

Refueling hose specially designed for conveying compressed natural gas. Dissipates static build-up. Confirms to **NFPA52**

AIRLESS PAINT

High pressure Airless paint spray system for 140 to 350 Bar.

HI PRESSURE

Compact, high pressure, light weight, high abrasion resistance and low change in length for use with petroleum, synthetic or water based fluids. Hydraulic Lines **700 BAR**

ULTRA HI PRESSURE

Very High Pressure Hydraulic Lines 1040 bar.

MICRO

Very High pressure mini Hydraulic Lines
250 to 630 BAR

Industrial Rubber Hose | Air

AIR LL20

Long lenght medium duty air hose for air drill.
WP 20 bar

AIR P20

Special PVC Hose suitable for pneumatic equipment and tools.
WP 20 bar

AIR 10

Mandrel built heavy duty air hose.
WP 10 bar

AIR 20

Mandrel built heavy duty air hose.
WP 20 bar

Air C

Mandrel built light and flexible suction hose for air and high abrasive powder.
Temperature: - 35 C + 70 C

AIR STEEL

Compressed air service in severe working conditions in mines, quarries and industrial applications.
WP 30 to 60 bar

Industrial Rubber Hose | Water

WATER LL10

Long lenght hose general purpose water delivery hoses.
WP 10 bar

WD 10

Mandrel built water delivery hose suitable for irrigation systems and submersible pumps.
WP 10 bar

WD 20

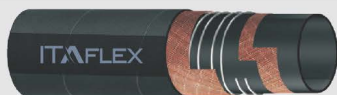

Mandrel built general purpose water delivery hose for water and non corrosive fluids.
WP 20 bar

WSD 10

Mandrel built water suction and delivery hose suitable for water and non corrosive fluids. Heavy Duty.
WP 10 bar

WSD 20

Mandrel built water suction and delivery hose suitable for water and non corrosive fluids. Heavy Duty.
WP 20 bar

Industrial Rubber Hose | Oil

FUEL LL20

Special hose for delivery of oil, gasoline, and diesel with up to 40% aromatic content SAE J30 R7
WP 20 bar

PETROL PUMP

Antistatic Hose for pumping diesel, petrol, and lead free petrol.
WP 16 bar

FUEL TEXTILE

Hose for delivery of oil, petrol and diesel.
WP 10 bar

FUEL STEEL

Hose for delivery of oil, petrol, diesel and lubricants
WP 15-25 bar

FUEL OIL 10

Delivery hose for oil, gasoline, diesel with aromatic content up to 40%
WP 10 bar

FUEL OIL 20

Delivery hose for oil, gasoline, diesel with aromatic content up to 40%
WP 20 bar

OSD 10

Suction and Delivery hose for oil, gasoline, diesel with aromatic content up to 40%.
WP 10 bar

OSD 20

Suction and Delivery hose for oil, gasoline, diesel with aromatic content up to 40%.
WP 20 bar

R4

Suction and Delivery hose for hydraulic fluids.
Exceeds SAE 100 R4

OSD C15

Extremely flexible hose for suction and delivery of fuel, lubricants and other petroleum liquids with aromatic content up to 40%
WP 15 bar

OXYGEN		Oxygen delivery hose, for welding and technical applications in shipyards, construction and manufacturing industries. WP 20 bar
ACETYLENE		Acetylene delivery hose for welding and technical applications in shipyards, construction and manufacturing industries. WP 20 bar
NITROGEN		Nitrogen service hose. Transfer of nitrogen at ambient temperatures. WP 20 bar
CNG/LPG		Low pressure hose, long length, used in vehicles for methane gas CNG and LPG installations according to regulations R.110-00 Class2 and R67-01 Class 2. WP 5 bar WP 20 bar
LPG 25		Antistatic LPG delivery hose. EN1762. WP 25 bar
TWIN WELDING		Specially designed Oxy-acetylene welding and cutting equipments. WP 20 bar
MULTIPURPOSE		Premium quality hose for air, water, fuel, oil and other common solvents. WP 20 bar

Industrial Rubber Hose | Bulk Materials

CEMENT 6		Mandrel built bulk material delivery hose suitable for abrasive materials such as cement, chalk, lime and abrasive powders in small granulometry. WP 6 bar
GROUT 12		Mandrel built delivery hose for plaster, grout slurry, chalk and abrasive material. WP 12 bar
SANDBLAST 12		Hose conveying highly abrasive materials, for shotblasting and other media as quartz, sand, steel and glass shot, corundum, etc. WP 12 bar
CEMENT 20		Mandrel built bulk material suction and delivery hose. WP 20 bar
CONCRETE 40		Mandrel built high pressure delivery hose plaster, concrete, slurry and abrasive materials with small granulometry. WP 40 bar

CONCRETE 80

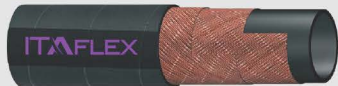

Mandrel built steel reinforced concrete placement hose.
WP 85 bar

VIBRATOR 10

Hose for electric pneumatic vibrators.
WP 10 bar

BULK SD

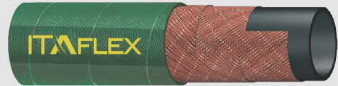

Suitable for pneumatic conveying (suction and discharge) in industrial applications of dry cement, coal, RDF, minerals, ceramic powder, glass recovery, glassfiber, and storage warehouse and silos.
WP 5 bar

Industrial Rubber Hose | **Chemical****CHEMICAL EPDM**

Mandrel built delivery hose designed to convey organic and non organic acids in high concentration, salts, bases, ketones and dye-stuff for cloth.
WP 16 bar

CHEMICAL UHMWPE

Mandrel built multipurpose delivery hose designed for acids, bases, ketons, aldehyds, esters, and aromatic, aliphatic hydrocarbons (limited resistance to chlorinated hydrocarbons).
WP 16 bar

CHEMICAL XLPE

Mandrel Build Delivery hose designed for acids, bases, ketons, aldehydes, ester, aromatic and aliphatic hydrocarbons.
WP 16 bar

CHEMICAL S EPDM

Mandrel built suction and delivery hose designed to convey organic and non organic acids in high concentration, salts, bases, ketones and dye-stuff for cloth.
WP 16 bar

CHEMICAL S UHMWPE C

Mandrel built multipurpose suction and delivery hose designed for acids, bases, ketons, aldehyds, esters, aromatic and aliphatic hydrocarbons -FDA approved.
WP 16 bar

CHEMICAL S XLPE

Mandrel Build S/D hose designed for acids, bases, ketons, aldehydes, ester, aromatic and aliphatic hydrocarbons.
WP 16 bar

Industrial Rubber Hose | **Steam****VAPOR**

Steam hose designed at max. 164 °C for cleaning, sterilization and washdown.
WP 8 bar

STEELVAPOR

For delivery of saturated steam up to 206 °C and superheated steam with peaks up to 232 °C.
WP 18 bar

FIBERGLASS 20		Mandrel built glassfibre covered coolant hose. Insulating. Perforation value 25.000 V. WP 20 bar
FIBERGLASS 6		Mandrel built glassfibre covered hose for cable protection in steel factories, resistant to steel splashes. WP 6 bar
FIBERGLASS G		Mandrel built delivery hose for injection of oxygene in the steel industry. Temperature: - 30 C + 100 C
FIBERGLASS S10		Mandrel built cooling water S/D hose with insulating properties for steel and glass manufacturing industry. WP 10 bar

Industrial Rubber Hose | Food

FOOD 10		Mandrel built food hose suitable for delivery of milk, dairy products, alcoholic drinks with low alcoholic content, fruit juices and oily and fatty foodstuffs of animal or vegetable origin. WP 10 bar
FOOD SD 10		Mandrel built suction and delivery food hose for milk collecting trucks, easy handling is guaranteed by its high flexibility and lightweight. WP 10 bar
SPECIALFOOD 10		Mandrel built food hose suitable for suction and delivery of wine, beer, mineral water, fruit juices, milk, yoghurt and fatty foods of vegetable origin. WP 10 bar
SPECIALFOOD SD 10		Mandrel built bulk food suction and delivery hose for conveying liquid and highly abrasive solid food in granular or powder form: sugar, grain, cereals, etc. Especially suitable for PVC granulates. WP 10 bar

Industrial Rubber Hose | Marine

CARBOPOMP		Delivery of petrol, diesel and biodiesel to engine on private boats. up to 24 mt.
CARBOPOMP/M		Delivery of petrol, diesel oil, biodiesel to engine on private boats up to 24 mt.
EASYFLEX 7		Marine hose for machinery spaces and spaces with fire risk on private boats over 24m and on working boats, for exhaust fuel and lubricating systems.

KRISTALTEX		Hose suitable for automatic cleaning system, compressed air system, fluid level gauge, food industry.
VENTIL		Hose suitable for extraction of air, gas, dust and fumes, suction of sawdust, wood shaving and fine textile filament. Great flexibility makes it especially good for mobile units.
STEELEX		Hose suitable for suction and delivery of liquids in industrial and agricultural applications.
STEELTEX		Hose suitable for suction and delivery of foods and liquids in industrial and agricultural applications. Particularly suitable for pumps.
TERMOVENT		Hose suitable for fume and dust extractors, air conditioning and ventilation systems.
FIRE		Hose for fire fighting installations.
WELD 20		Hose designed for industrial gas welding applications.
VENT PU		Hose suitable for suction and delivery of air, dust, fumes, textile filaments, sawdust, wood shavings and general abrasive materials.

Protection Hose

Part No.: 9PF
SILCON COATED FIBREGLASS SLEEVE

Part No.: 9PG
POLYETHYLENE SPIRAL GUARDS
AVAILABLE IN BLACK AND YELLOW

Part No.: 9PS
STEEL PROTECTIVE COIL SPRINGS

S2A

A mobile hose crimper for flexible use. There are several variants of this hose crimper you can choose from, a manual one with compressed air drive, an electric -1 phase and a DC variant.

S2M

For the low volume user who has a requirement to crimp hoses in a repair type of environment rather than production, but wants to crimp bigger hoses than S1M model.

S6 ecolines

The S6 ecoline crimper is for the workshop (or mobile) volume user who has a requirement to crimp hoses in a repair or medium production environment in a workshop or mobile van.

HM 200 Ecoline

For the workshop volume user who has a requirement to crimp hoses in a repair or medium production environment in a workshop or mobile van.

HM 200 Ecoline DC

S7

For the low volume user who has a requirement to crimp hoses in a repair type of environment rather than production.

S8i / S10i Ecolines

The new 2" hydraulic workshop crimper doubles as 4" industrial

S10i

For the workshop volume user who has a requirement to crimp 2" hoses in a repair or medium production environment in a workshop or container on site.

Hose Cutting Machines

EM3

For each type of workshop:
This cutting machine with its 3 kW drive is also available as an ecoline or DC variant.
For hydraulic hoses up to 1 1/4".

EM 3 DC

the EM3 DC is designed for mobile van or truck operator.

EM 6 M

Unique drive motors with double bearings and oversized shafts to avoid vibration.

EM8 M

Its cutting motors ensure optimum cutting results thanks to their unique minimum vibration. 4.6 kW drive. For hydraulic hose assemblies up to 2" and industrial hose assemblies up to 4".

EM8P

The EM8 P is designed for medium production workshop cutting up to 2" six wire hoses.

EM110

The safe high-quality cutting machine for the production process. 7.5 kW drive max. For hydraulic hose assemblies up to 2" and industrial hose assemblies up to 4".

Production Crimpers

HM220

Its unrivaled accessibility makes ergonomic working possible – optionally from both sides – in production and series manufacture.

HM 325/375/380

Combining a convincingly solid construction with a high level of user friendliness, and long service life, the HM3xx set a new standard for quality and cost effectiveness.

HM480

For the production volume user who has a requirement to crimp 3" hydraulic hoses in a repair or high production environment, large Industrial Hoses up to 10" in diameter.

Peripheral Equipment

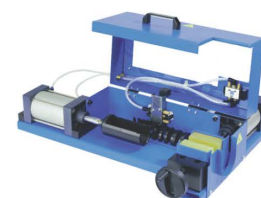

USM 2

This unit is designed for the predominantly non-skive assembler who has an occasional need to skive hoses.

USM 10 ECOLINE

This unit is designed for the predominantly for medium batch skiving of hoses.

UNE 10

A high-performance nipple inserter for inserting fittings that are difficult to assemble.

UP 10 ecoline

This embossing device in compact table-top design is convincing thanks to easiest handling.

PR 10

The use of gas conducting hoses (e.g. air, nitrogen etc.) requires the perforation of the cover.

RG10

This hose cleaning machine with two flushing heads is suited for all types of hose and tube assemblies.

Part No.: PC
TUBE CUTTER

Part No.: RNPC50
TUBE CUTTER
